

SUMMARY

Johnston County Transportation Advisory Committee

October 8, 2009 – 1:00 PM,
Land Use Center - Conference Room
Smithfield, North Carolina

Attendees:

- Scott Walston, NCDOT Planning Branch
- Sarah Ezzell, NCDOT Planning Branch
- Berry Gray, Johnston County
- Rich Cregar, Johnston County TAC
- Skip Browder, Town of Clayton
- Tooie Hales, Town of Kenly
- Braston Newton, Town of Benson
- Ryan Simons, Town of Selma
- Mark Helmer, Town of Smithfield
- Leighanna Worley, Town of Wilson's Mills
- Daniel VanLiere, RPO
- Harry Carter, Citizen

Increased Participation

The committee members discussed a need to have more participation and attendance from jurisdictions. IT was decided that an agenda needed to be sent to the group a few weeks before the meeting so the participants will know what to expect. The meeting should be limited to one hour starting at 2pm . At some point, all mayors need to be invited to the meetings to look at the details of the plan once they are formed by the committee.

It was noted that Princeton, Pine Level and Micro had not yet approved resolutions to participate in the CTP. There will be a meeting with Princeton and Pine Level in a few weeks to discuss the relation of the CTP with the Super 70 Corridor Commission Plan.

Public Survey

Sarah went through the basic survey results and informed the committee that it could be arranged in many different formats and made to reflect the interest of each town and township. It was noted that an executive summary of the survey results may be beneficial to send to all the mayors.

Roadways Map

The group reviewed the countywide map to see the identified routes for study. Several additional roadways were added. The group was informed that it may take as much as three months to study roadways in which traffic counts are not available.

.

Next Meeting: Thursday, December 17, 2009 at 2pm, Johnston County Land Use Center
